

Roopamdeep Kaur

Full Stack Developer | Frontend Developer | Cloud Developer
Toronto, Ontario | roopamdeep.concordia@gmail.com | 514-436-0216 | [Linkedin](#) | [Github](#) | [Portfolio](#)

Technical Skills

- **Languages** : JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3
- **Front-End**: React, Next.JS, Tailwind CSS, Radix UI, Chakra UI, Redux, Zustand, Vite
- **Back-End**: MySQL, Nodejs, ExpressJs, MongoDB, Prisma ORM, JWT Authentication, Joi Validation, Restful APIs
- **Cloud & DevOps**: AWS(EC2, S3, Lambda, API Gateway, Cloudwatch, DynamoDb), Docker, CI/CD (Github Actions, Jenkins, Azure Devops), Serverless Framework, Terraform
- **Tools & Platforms**: Postman, Git, VSCode, Visual Studio, ChromeDevTools, IntelliJ, Firebase, Heroku, JIRA
- **Concepts & Practices**: Agile Development, Microservices architecture, TDD(Test Driven Development), Containerization, Cloud Deployment Pipelines.

Education

Concordia University | Montreal, CA | Master of Engineering, Software Engineering | **2018–2020**
ACET | Amritsar, IN | Bachelor of Engineering, Computer Science | **2012-2016**

Work Experience

Debt Recovery(System and Support Specialist) | Total Credit Recovery | July 2023-Present

- Worked closely with internal account management systems to monitor and update client financial records using SQL-based databases and in house software tools.
- Collaborated with internal tech teams to flag issues, test updates, and provide feedback on digital tools used for account tracking and client communications.
- Explored automation concepts and cloud based prototypes outside regular workflows to improve internal data-handling efficiency.

Full Stack Developer | Avanade, Toronto | June 2021 - Oct 2022

- Collaborated and developed application code with advanced technologies like **JavaScript, React, Nodejs, ExpressJS, MySQL, Typescript** with **cross-functional teams of developers in AGILE environment** to ensure seamless configuration and prioritize feature enhancements to meet business application requirements.
- Partnered with DevOps teams to automate deployments and monitoring using **AWS(S3, Lambda, Cloudwatch)**
- Increased team **productivity by 20%** by creating and maintaining comprehensive documentation on best practices for deploying applications on the **Azure** cloud infrastructure using CI/CD tools like **Azure DevOps** and Jenkins.

Junior Software Engineer | Global Quality Projects, India | Sept 2016- Nov 2017

- Developed responsive web components using **React** and backend routes in **Express.js**, **boosting API performance** by 20%.
- Implemented database optimization scripts and introduced basic unit testing, reducing release issues by 15%.

Software Engineering Intern| NIELITS, India | Jan 2016 - July 2016

- Contributed to internal order-tracking platform by integrating frontend forms with APIs, improving forms efficiency by 25%.
- Assisted in UI/UX enhancement and code documentation for better maintainability.

Personal Projects

Game hub | [live](#) | [code](#)

Video game discovery web application built with React and Typescript

- It lets you search for games by platform, genre and more, deployed on Vercel. During this project, I learned how to use Chakra-Ui and how to use rawg-io api. I also learned how to use React Query for client-side caching, Zustand for state management, and Vite for package bundler.

Issue Tracker [code](#)

Frontend and Backend built Next.js, TypeScript, Prisma, Tailwind, and Radix UI deployed on Vercel

- Full stack web application with features like dashboard, charts, sorting, filtering, pagination, CRUD, auth, forms, dialogs, skeleton loading and caching. Implemented user authentication with NextAuth.js and routing and navigation with new App Router.

Vidly | [code](#)

Backend mimicking functionalities of Movie Rental application.built with NodeJS, ExpressJS, MongoDB

- Used libraries like lodash for simplifying objects and working with arrays, bcrypt for passwords.
- Used JWT for authentication and authorization using a private key.
- Used JOI module as middleware for validation and Jest for integration and unit testing.
-

Certifications

- **AZ-900 Azure Fundamentals**, Microsoft 2022 | **AZ-400 Azure Developer Associate**, Microsoft 2022 | **React**, Hacker Rank 2021
