

ROOPAMDEEP KAUR

Full Stack Developer | Frontend Developer

Toronto, Ontario | 514-4360216 | roopamdeep.concordia@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Full Stack Developer with 3+ years of experience building React and Node.js applications, REST APIs, and Azure cloud deployments. Focused on scalable UIs, backend integrations, and automation-driven improvements. Strong in Typescript, DevOps workflows, and SQL-based systems.

PROFESSIONAL EXPERIENCE

Total Credit Recovery, System and Support Specialist | Toronto July 2023- Present

- Worked with SQL-based systems to maintain and validate large volumes of financial data with high accuracy.
- Partnered with internal tech teams to test system updates, report defects, and validate fixes.
- Built small automation prototypes and process improvements to reduce manual data handling.

Avanade, Full Stack Developer | Remote, Toronto June 2021-Oct 2022

- Owned development of React and TypeScript features across enterprise modules, delivering 10+ production features used by internal business teams.
- Developed and maintained REST APIs using Node.js and Express, handling authentication, validation, and frontend consumption.
- Identifying recurring production issues and contributed fixes that reduced post-release bugs by ~15% improving overall application stability.
- Supported production deployments in Azure, working with Azure DevOps CI/CD pipelines to manage builds, releases, and environment promotions.

Global Quality Projects, Junior Software Developer | India Sept 2016-Nov 2017

- Built and maintained web features using Javascript and React, improving stability and performance.
- Collaborated with senior developers to develop REST APIs and integrate backend services.

EDUCATION

Master of Engineering in Software Engineering, Concordia University, Canada

Jan 2018- June 2020

Bachelor of Technology in Computer Science, A.C.E.T, India

Jan 2012- June 2016

TECHNICAL SKILLS

- **Languages** : JavaScript(ES6+), TypeScript, SQL, Python
- **Frontend** : React, Next.js(App Router), Tailwind CSS, Redux, Zustand
- **Backend** : Node.js, Express.js, REST APIs, Prisma, Authentication, API Design, Socket.io, JWT
- **Cloud & DevOps** : Docker, CI/CD(Github Actions/Jenkins), Azure, Containerised applications
- **Tools and Platforms** : Postman, GIT, VS Code, Chrome DevTools, Jira
- **Certifications**: AZ 400 Azure Developer Associate, AZ 900 Azure Fundamentals, React Hacker Rank 2021

RELEVANT PROJECTS

StackMatch - AI Hiring Platform | Next.js, TypeScript, PostgreSQL, Prisma | [Code](#)

- Architected a full-stack AI hiring platform matching developers to jobs based on tech stack alignment, implementing JWT authentication, AI-powered resume scoring, and AWS S3 file storage.
- Engineered real-time notifications using Socket.io and automated CI/CD pipelines with Github Actions.

Vault - Personal Finance Manager | Next.js, TypeScript, Python, PostgreSQL, Redis | [Code](#)

- Built a full-stack finance platform with Plaid bank connectivity, Python microservice for automated transaction categorization, anomaly detection, and budget forecasting.
- Built a microservice system with Node.js REST API, FastAPI intelligence layer, Stripe subscription billing, Open AI natural language insights.

Gamehub - Game Discovery Platform | React, TypeScript, ChakraUI | [Code](#) | [Live](#)

- Built a responsive game discovery platform with genre/platform filtering, sorting and searching using RAWG API integration and custom React hooks.
- Implemented dark mode, loading skeletons, and optimized image rendering for a seamless user experience.
