

ROOPAMDEEP KAUR

Software Developer

Toronto, Ontario | 514-4360216 | roopamdeep.concordia@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Full Stack Developer with Masters in Software Engineering building React, Next.js, and Python applications with AI integration. Focused on scalable architecture, cloud-native backends, and intelligent document processing. Strong in TypeScript, PostgreSQL, and REST API design.

TECHNICAL SKILLS

- **Languages** : JavaScript(ES6+), TypeScript, SQL, Python
- **Frontend** : React, Next.js(App Router), Tailwind CSS, Redux, Zustand, Recharts
- **Backend** : Node.js, Express.js, REST APIs, Prisma, Authentication, API Design, Socket.io, JWT
- **Cloud & DevOps** : Docker, AWS S3, Azure, GitHub Actions, CI/CD, Vercel
- **Tools**: Postman, Git, VS Code, Jira, Plaid API, Stripe, OpenAI API
- **Certifications**: AZ-400 Azure Developer Associate, AZ-900 Azure Fundamentals, React HackerRank 2021

PROFESSIONAL EXPERIENCE

Total Credit Recovery, Debt Counsellor | Toronto July 2023- Present

- Maintained high-volume consumer accounts, researching financial status and documenting case details across multiple account management systems while ensuring regulatory compliance.
- Built and shipped independent projects(StackMatch and Vault) alongside full-time role, maintaining hands-on development skills in React, Node.js, Azure.

Avanade, Full Stack Developer | Remote, Toronto June 2021-Oct 2022

- Owned development of React and TypeScript features across enterprise modules, delivering 10+ production features used by internal business teams.
- Developed and maintained Node.js REST APIs with JWT authentication, input validation, and PostgreSQL database integration.
- Identified recurring production issues and contributed fixes that reduced post-release bugs by ~15% improving overall application stability.
- Supported Azure cloud deployments using Azure DevOps CI/CD pipelines to manage builds, releases, and environment promotions.

Global Quality Projects, Junior Software Developer | India Sept 2016-Nov 2017

- Built and maintained web features using Javascript, React and MongoDB, improving stability and performance.
- Collaborated with senior developers to develop REST APIs and integrate backend services.

EDUCATION

Master of Engineering in Software Engineering, Concordia University, Canada

Jan 2018- June 2020

Bachelor of Technology in Computer Science, A.C.E.T, India

Jan 2012- June 2016

RELEVANT PROJECTS

Vault - Personal Finance Manager | Next.js, TypeScript, Python, PostgreSQL, Zustand, Recharts | [Code](#) | [Live](#)

- Built a full-stack personal finance platform with Plaid bank connectivity, automated transaction categorization via Python microservice, anomaly detection, and budget forecasting.
- Architected a microservice system with Next.js API routes, FastAPI intelligence layer, OpenAI natural language spending insights, and Stripe subscription billing.

StackMatch - AI Hiring Platform | Next.js, TypeScript, PostgreSQL, Prisma | [Code](#) | [Live](#)

- Architected a full-stack AI hiring platform matching developers to jobs based on tech stack alignment, implementing JWT authentication, AI-powered resume scoring, and AWS S3 file storage.
- Engineered real-time email notifications using Resend and automated CI/CD pipelines with GitHub Actions.

Tenant Track - Property Management | React, TypeScript, Redux, Node.js, PostgreSQL, AWS S3 | [Code](#) | [Live](#)

- Built a multi-role property management app where landlords manage properties and tenants submit maintenance requests with email notifications.
- Architected Express backend with AWS S3, JWT auth, and PostgreSQL on Vercel and Railway.
